Before You Go Tomorrow

One Voice

I can't leave you but I know you can't stay
I never thought our love could end up this way
and I can't imagine livin life without you now
how could this happen that you're lovin me down
never thought I'd feel so much hurt inside
so much to even let down my pride
and i know its ova now so darlin help me out
chorus:
before you go tomorrow
just love me today
whisper you'll stay with me
just softly as you walk away
ooooohhhhh
my love of a lifetime had left suddenly(suddenly)

I thought id love you could go on endlessly
and I cant beleive you that you could go on
theres no way out im not that strong
now my hearts are starin into your eyes (into your eyes)
and my heart just wants to ask you why
why did this have to be , that youre leavin me
Repeat chorus
There's no sense in denyin
I know that I'm just lyin to myself
I need your help so dont go away
Just give me one more night to make things right
'cause I don't beleive that you wanna leave
And end this way
Repeat chorus twice
