

# I Wish It Would Rain

**Dennis Edwards, Eddie Kendricks & David Ruffin**

Well I wish that it would rain  
Heavy rain down from the sky  
Maybe then you wouldn't see the teardrops in my eyes  
Well I wish that it would rain  
It would be a great disguise  
Maybe then you wouldn't see the teardrops in my eyes  
And all of the raindrops that fall down on my face  
Erase all the memories of you and your embrace  
I'll long for the moment that I lose this bitter taste  
And I don't want you to see me this way  
Well I wish that it would rain

Heavy rain down from the sky  
Ooh maybe then I wouldn't see you walking right on by  
Well I wish that it would rain  
Let it storm just for awhile  
Ooh yeah maybe then you wouldn't see this sadness in my smile  
Ooh noo and all of the raindrops that fall down on my face  
Erase all the memories of you and your embrace  
I'll long for the moment that I lose this bitter taste  
And I don't want you to see me this way  
Rain down rain down (x2)  
Rain down rain down on me  
(Repeat)
