

# Me and Crippled Soldiers

[Merle Haggard](#)

Now that it's alright, to burn the stars and stripes  
Guess nobody really needs old Uncle Sam  
Might as well burn the Bill of Rights as well  
And let our country go straight to Hell  
Only me and crippled soldiers give a damn Should they throw away their Purple Hearts,  
and hide their uniforms?  
And be proud to hear Old Glory's on the ground? Somebody said they'd take us without firing a shot  
I don't know if they will or not  
But only me and crippled soldiers give a damn Has the Holocaust been so long?  
Is Hitler really gone?  
As we burn our only cause for Vietnam  
There's the mom who lost a son  
Is this the freedom that we won?  
Where only me and crippled soldiers give a damn I've been known to wave the flag before  
And saddened when we went to war  
Fighting for the symbol of our land For all the wars we fought and won  
To keep Old Glory waving  
Today they ruled to burn Old Glory down  
And only me and crippled soldiers
