

Body

Niia

You back off to stalk in
You come on strong to win
I let you in my skin
Slow down
Time is your friend It's my love for you
Oh, it's my love for you (x2) We could be straggers
We could be strangers in the night
We could be lovers
As long as you love my body right You and me
We could be
As long as you love my body right (x2) You play rough you push I bent
Close to the bone, slight sin
I should warn you once it begins
No control no hands It's my love for you
Oh, it's my love for you (x2) We could be straggers
We could be strangers in the night
We could be lovers
As long as you love my body right You pull me back again
You pull me back
You pull me back again (x2) I don't want this to end We could be straggers (could be strangers)
We could be strangers in the night
We could be lovers
As long as you love my body right (x2) You and me
We could be
As long as you love my body right (x2)
