

Quiet Now

The O'Pears

Quiet now

This is the moment when no one's around
White of the moon casting light on the snow
Falling without a sound

Holidays

Doesn't it feel like you're losing a race
Come over here won't you slow down
Before it all slips away

Home is here

It's hard to change
The patterns that we've always made

Fire light

Keeping us warm on the coldest night
Being together is all that we need
To put all the rest aside

Home is here

It's hard to change
The patterns that we've always made

Letting go

And holding close so
Peace can be with us at home

(in round)

Home is here

It's hard to change
The patterns that we've always made

Letting go

And holding close so
Peace can be with us at home

Home is here

It's hard to change
The patterns that we've always made

Letting go
And holding close so
Peace can be with us at home

Home
