A Lot to Learn

Biohazard

You walk around, always screaming about
How you're trying to get your way
You should just keep your fucking fat mouth shut
When you got nothing important to sayBecause you
(You got a lot to learn)
You
(You got a lot to learn)
You
(You got a lot to learn)
You
(You got a lot to learn)All you do is bitch about the things in life that get you down
You never care for nobody else
If you saw how your life looks to me
I think you'd be ashamed of yourselfBecause you
(You got a lot to learn)
You
(You got a lot to learn)
You
(You got a lot to learn)
You
(You got a lot to learn)(You)
You live inside your fucked-up world
Talking loud with nothing to say
You got a lot to learn about your life
Because you can't keep on living this wayBecause you
(You got a lot to learn)
You
(You got a lot to learn)
You
(You got a lot to learn)
You
(You got a lot to learn)
