

# Minds on the Moon

## Tankard

Nowherebound and without a care  
Livin' our lives in a way of "no fear"  
Floatin' around in a storm  
that blows us away from today  
Step on it, baby don't let go  
Follow the stupid,  
enlighten your soul  
See the light,  
like an everlasting flame,  
burning bright  
Every day the same,  
madness is the game  
It's time for us to hit the road  
Money more or less,  
sometimes it's a mess  
But on and on confusion grows [Chorus:]  
Time keeps spinning in the afternoon  
Our minds are up on the moon  
In a state of permanent confusion  
Life is just an illusion  
Nowherebound and without a care  
Livin' our lives in a way of "no fear"  
Floatin' around in a storm  
that blows us away from today  
Step on it, baby don't let go  
Follow the stupid,  
enlighten your soul  
See the light,  
like an everlasting flame,  
burning bright  
Every day the same,  
loosing our brain  
Reality's out of control  
Women more or less,  
sometimes it's a mess  
But on and on confusion grows [Chorus]
