## I Saw You Today

## **Sammy Kershaw**

Despite all the distance and time
And the changes that I have gone through
You never strayed far from my mind

And I never stop hoping once more, I'd see youThen I saw you today, in the backyard at play Baby blue eyes, blond hair in the wind

She's you all over again

Although you went away, I saw you todayI used to wish on a star

And I used to send up a prayer

To Heaven where I know you are

That some day I'd see you up there or somewhereThen I saw you today, in the backyard at play Baby blue eyes, blond hair in the wind

She's you all over again

Although you went away, I saw you, I saw you today
