Annu Kunuk Nergal
Annu Kussum Pazuzu
Ultu Ulla Bit LitumHark the howl of pestilential wind
Atem, devourer of life forever blackeningSculpted in stone by the Assyrian wind
Semen of Hanpa has vomited thee forth
Reveal to us, overwhelming might
Release thy rage, destroyer of liesHark the howl of pestilential wind
Atem, devourer of life forever blackeningUnveil the primal chaos within thyself
Daughter of Anu slain, Lamashtu annihilate
Reveal to us, overwhelming might
Release thy rage, destroyer of liesTranscending the wrath of The Great Black
Slay the reptile, slay, I commandMay 107 complete the cycle
When aeon of Seth emerges
The desert storms can not be tamed
When concubine of chaos begins her danceReveal to us, overwhelming might
Release thy rage, destroyer of lies
