Don't Stop

Professional Murder Music

We won't stop today, we're flying high.
Can't walk away, we'll own this night.
How could I take it slow?
Feel alive and break on through.
So good and you're not like anything I've know,
And I hope it never ends.
Can't end this day and like before
I dreamt of this place but it's so much more.
Tempted me too many times,
Tears at hole but feels alright.
So good and you're not like anything I've know,
And I hope it never ends.
