Madeleine

The Balfa Brothers

We've been through days of thunder
Some people said we don't belong
They try to pull us under
But here we stand together and were millions strongLet's get on with the show (let's get started)
Turn the lights down low (turn the lights down low)
You were there from the start (you were there)
We know who you areAnd this one goes out toCHORUSEveryone, yeah, everyone, everyone
So this one goes out to you
Everyone
We're standing strong
'Cause of what you've done
And this one goes out to youWe've been inside the circus
We took the pleasure with the pain
I guess there's something about us
Whatever comes around we'll always stay the same, oh yeahLet's get on with the show (oh, let's get started)
Turn the lights down low (turn the lights down low)
You were there from the start (you were there)
We know who you are
We know who you areCHORUS - repeatNow we're minutes away
'Til it's time to play
Our heartbeats are rising, they're letting you in
Time for the show to beginWe, we're standing strong 'cause of what you've done
This one goes out to you, you, you
You make us feel like we've just begun
And this one goes out to youCHORUS x2
