

Murder Ballad

One-Eyed Doll

Lately I'm feeling cold and lonely
Lately I'm feeling bad
Who made the world so cold and lonely
Who made the world so sad
Who made the world so sad
Last night he said he really loved me
Last night forever began
Tonight I sleep on a tear-stained pillow
Why did I kill my man
Why did I kill my man
I did it for love
I did it cause I knew you'd want it all someday
I did it for love
Murder was the only way
The only way I was his first
His first obsession
He was my camera man
I could have been with him forever
Why did I kill my man
Why did I kill my man
I did it for love
I did it cause I knew you'd want it all someday
I did it for love
Murder was the only way
The only way
