We Love You Jesus

Greg Long

They were young and they were free
There were twelve men who believed
In a man who asked them to leave
It all behind and follow meSo they set out on this journey
Not knowing where He would lead
But soon they would see clearly
What the price would have to beThat day would come
When they would choose to live or give their lives away
They could have run
But with their final breath Heaven heard them sayWe love you Jesus
With all our hearts
Our Lord and Savior
You've been so good to usWe love you Jesus
You are the light in the dark
We'll follow you anywhere
We love you JesusWe don't see Him with our eyes
Can't touch the scars that are on His side
Still we feel Him in our souls
And now we know that He's aliveAnd our message is the same
As the twelve who made the way
With a faith that God will live inside
Of those who call His nameThe day has come
To lose ourselves and give our lives away
All for the One
Who's in our hearts, we raise our handsWe love you Jesus
With all our hearts
Our Lord and Savior
You've been so good to usWe love you Jesus
You are the light in the dark
We'll follow you anywhere
We love you JesusI believe, I believe in the promise
Of a life that no man can steal away
I believe, I believe we'll all see Jesus
And we'll worship Him foreverWe love you Jesus
With all our hearts
Our Lord and Savior
You've been so good to usWe love you Jesus
You are the light in the dark
We'll follow you anywhere

We love you JesusWe love you Jesus
With all our hearts
Our Lord and Savior
You've been so good to usWe love you Jesus
You are the light in the dark
