

Always Love

Old Man Canyon

Late night, cold heart, don't you, need to find it girl..
When it takes away the pain you feel you can't get enough,
your minds been made up,
And I always think that, you go, so far, just to not be alone,
And you wana face what you've become, you're so scared,
to leave, you won't ever believe.

All night you could fall, back in time now

It was just some type of girl you loved,
That made you give it up
Was it always love

And it's never just a game you play,
To all the hearts you break,
Yea it's always love

Bright lights, want some, it's like, you were born again.
Found what you need is there within ya,
Try to, forget, you chose, who you wana be.
And that you always say that, you're fine alone
You feel what the silence brings,
You're like cool breeze on a birds wings, yea,
Got all you need, just change what you believe.

All night you could fall, back in time now

And it was just some type of girl you loved,
That made you give it up
Was it always love

It's never just a game you play,
To all the hearts you break,
Yea it's always love

Don't you look like you're made of sunshine
Yes you do yes you do
You could make a bad man change his mind

And don't you look like you're made of sunshine

Yes you do yes you do
You could make a bad man change his mind

It was just some type of girl you loved,
That made you give it up
Was it always love

And it's never just a game you play,
To all the hearts you break,
Yea it's always love
