

World Restart (feat. Kelela & Ade)

Kindness

I felt the world restart,
I felt the world begin,
I felt we turned the page
And we begin again I felt the world restart,
I felt the world begin,
I felt we turned the page
And we begin again New feelings we begin again,
Old endings we begin anew
Old feelings hold you back again
Restart and take my hand
New feelings we begin again,
Old endings we begin anew
Old feelings take me back again
Let go and begin anew
Tell me when to go and I'll restart
There's nothing holding me back, baby
I'm in a place that's sending me off
Gliding into all the changes
Say it's you and me for life
And you know we mean it
Tell me something, tell me hard
Baby make me feel it I felt the world restart,
I felt the world begin,
I felt we turned the page
And we begin again
I felt the world restart,
I felt the world begin,
I felt we turned the page
And we begin, whoa
