Catch Me When I Fall

Ashlee Simpson

Is anybody out there?
Does anybody see?
That when the lights are off
Something's killing me
I know it seems like people care
?Cause they're always around me
But when the day is done
And everybody runs
Who will be the one to save me from myself?
Who will be the one who's there?
And not ashamed to see me crawl
Who's gonna catch me when I fall?
When the show is over
And it's empty everywhere
It's so hard to face
Going back alone
So I walk around the city
Anything, anything to clear my head
I've got nowhere to go
Nowhere but home
Who will be the one to save me from myself?
Who will be the one who's there?
And not ashamed to see me crawl
Who's gonna catch me when I fall?
It may seem I have everything
But everything means nothing
When the ride that you've been on
That you're coming off
Leaves you feeling lost
Is anybody out there?
Does anybody see?
That sometimes loneliness
Is just a part of me
Who will be the one to save me from myself?
Who will be the one who's there?
And not ashamed to see me crawl
Who's gonna catch me when I fall?
Who's gonna catch me when I fall?
Who's gonna catch me when I fall?

And not ashamed to see me crawl
Who's gonna catch me when I fall?
