

# Stranded

## Gojira

a growing sickness in the heart  
defective, lack of control  
the cure is somewhere in the silence  
but I'm crushed by the noise inside  
don't lock the door on me  
you'd kill me, face down, dead  
another part of me falls for you  
another day in the dark  
stranded in the night, stranded in the cold  
don't lock the door on me  
you'd kill me, face down, dead  
another point of view gone to waste  
please hear me out!  
you kill me, face down, dead  
another day in the dark
