He the man already
With the plan already
And his hand all ready
Stop trying to be fly, you can land already
Face up off the flo
Actin like you got no hope
Why you so downcast on my soul
We getting out this slump
Lets Go
He's claim to be given me
Man was an enemy
Grab your identity
You are not like three tweets follows
Fans in the metionings
To me with validity
When you claimed by the Trinity
Quite literally
Who I need to know when a mighty God is a friend of me
uh uh
yeah yeah
I know what you sayin but I
Know what Im feeling
I don't think I'm ton make it I'm so lost
Self pity
Still pride in self
Really
oh
Wont it be great
Take the e and put it after the t and add a flu to it (grateful)
You breathe to love beyond reason
No reason to be salty in any season
