Don't Walk Away

Caught In the Act

I tought I'd never find a way
To let you know how much I care
Our love grew
Stronger every day
But I just can't
Always be thereOne thing you got to know girl
You're all
I need in this world....Don't walk away from me
I love you endlessly
I want to share my love
Always and forever
Don't walk away from me
I nedd you can't you see
You'il never find
Another love like mineI tried so hard
To understand
You need some time
To work things out
But girk I want you back again
Why don't you stop
And turn aroundFollow your inuition
Just think of who you're missing.....Don't walk away from me
I love you endlessly
I want to share my love
Always and forever
Don't walk away from me
I nedd you can't you see
You'il never find
Another love like mine
