

Ariel

The Cure

Golden midnight taking us across the water
Holy love, sing
We're falling, closed from every other
As dawn breaks I wonder
Sun's growing cold
Ours is not to wonder
To never grow old
To never grow old
Oh ariel I will always feel right out here
Something wasn't taught in school
Sister and brother
Never loved each other like this
Oh listen, the water
And never fall
You never fall
Ariel
