

Who Loves You Better, Pt. 1

The Isley Brothers

Some say you're too easy
'Cause you stay by my side
I'm the one who keeps you happy
And you keep me satisfied Just be my lady
That'll be enough for me
And it won't matter, baby
What your friends think they see [Chorus]
Who loves you better, better
Than I do? I do!
Who knows you better, better
Than I do?
Than I do? Every day that passes by
Every night I spend with you
Puzzled by the things you try
Saddened by the things you do He can say sweet things to you
And promise you security
I find strength in loving you
Don't fight my love, give in to me [Chorus] You know you can't live your life
Doin' what the others do
Always taking their advice
May not be the best for you So just be my lady
And that'll be enough for me
And it won't matter, baby
What your friends think they see Hey! [Chorus]
