At First Light

Arceye

Deep within entrenchments
The orders are revealed
A final push impending
Encoded messages have been receivedAt first light
Fires of the enemy dead will burn bright
If in mourning they choose we die
Zero hour at first lightThe waiting time is over
No final night before
Once more into action
Embrace the storm. Oncoming for allStanding
At the edge
Allegiances
Now pledged: foreverOrders - unquestionable
All rank and file expendableThe frozen dawn emerges
Let the battle now commence
None surrendered through last night
Zero hour approachingAt first light
Fires of the enemy dead will burn bright
If in mourning they choose we die
Zero hour approaching
