

# At First Light

[Arceye](#)

Deep within entrenchments  
The orders are revealed  
A final push impending  
Encoded messages have been receivedAt first light  
Fires of the enemy dead will burn bright  
If in mourning they choose we die  
Zero hour at first lightThe waiting time is over  
No final night before  
Once more into action  
Embrace the storm. Oncoming for allStanding  
At the edge  
Allegiances  
Now pledged: foreverOrders - unquestionable  
All rank and file expendableThe frozen dawn emerges  
Let the battle now commence  
None surrendered through last night  
Zero hour approachingAt first light  
Fires of the enemy dead will burn bright  
If in mourning they choose we die  
Zero hour approaching
