Arizona Skies

Los Lobos

Throw my heart in the river
Let it drift on out to sea
It doesn't feel very good anymore
Have to wash myself free.

So get us out of here
Far away as we can be
'Cause I don't care no more
Long as you are there with me.

Have no worries, you've got a place to hide
That's what you've always said to me.
And open up your hand and hold mine inside
Take the air that I breathe.

But get us out of here
Far away as we can be
'Cause I don't care no more
Long as you are there with me.

Pack our things, and we'll leave in the mornin'
Head for Arizona skies
Lose ourselves in the desert tonight
You got no need to ask me why.

So get us out of here
Far away as we can be
'Cause I don't care no more
Long as you are there with me.

But get us out of here
Far away as we can be
'Cause I don't care no more
Long as you are there with me
