

Ravenous, Ravenous, Rhinos

I Set My Friends on Fire

What the fuck are we playing?
Periodic reverberations of our gaseous medium!
Yes, I like sequences and repetitions
But where the hell did you come from?
Auditory communication incorporated by
These danfangled contraptions.
But I hope we aren't talking
About your pointless bitching
If I had a rocket launcher!
No wait! Breathe still! calm down!
This is not what this is about! Is it capable of being copied
To another individual's memory?
Will they tell it to others?
Is this noise suppose to be a secret?
A secret!? I want the meaning you asshole!
Real evolutionary, evidentiary backup. Prove the thesis.
Provide antitheses.
Reach syntheses.(x2)[X4]
Will they sing it to others?
Create, cognize, and recognize!
