

# All Night

## Swollen Members

[Intro]

Yeah, this is Swollen Members, c'mon  
Another Battle Axe banger  
Breaking out the heat, showing you what's really going on  
c'mon[Chorus: repeat 2X]  
Don't stop.Make it last all night  
Hey Ma, what's really good.Shake your ass all night  
c'mon get in the ride.Drive fast all night  
"She already got a girl".That's all right[Verse: MadChild]  
What up ma, you want to hang with a rock star  
Hop into my truck get stopped by a cop car (woop, woop)  
How does this suppose to get  
seems like the police, they don't like my associates  
We some monsters is concert  
Drunk in the middle of the club like "Who wants it!?"  
Mass appeal with massive whips, bling-bling  
Drunk with a belt buckle in the motorcycle ring king (?)  
Brand new breed creep for vengeance  
Bad muscle car with TV's and chromed out engines  
Fucking models and smashing glass bottles  
Full blown, no helmet, full throttle  
Rein stone cowboy desperado  
Underground to winning the rap lotto  
Now MadChild's talking about cash, son of a bitch  
I was just broke before its more fun being rich[Chorus] 2x[Verse: Prevail]  
Yo ma you so raw, hotter than Soul La  
I like so far, dancing with no bra  
Show me where them hands are, reaching for my keys  
Its cool we can roll we do everything in three's  
Four go with them, two come with me  
Pound it like a drum see how fun it can be  
Got pull like a monster truck, at the crib  
Do watch the fuck this is life live it up  
Case closed but there's more for later  
Pushing her buttons like Space Invaders  
My whole pack is tattooed in black like villains  
We can bounce tonight but tomorrow don't catch feelings[Chorus]  
Bounce, Rock, Drink, Smoke, Do whatever  
Can't stop get more of this cheddar

Don't you love it when a plan comes together  
Doing big things spending more of this cheddar[Verse: Moka Only]  
I hear them say glorious how it must feel  
We coming through rolling on rims bigger than bus wheels  
And plus skill that's a total package  
You scared like airplanes and exploding (?)  
That's the size of the damage we do, no amateur crew  
Taking care of business like a manager do  
Hey! Rhymes knowing how I'm so fantastic  
When I bend it and smack it, just ask the last chick  
The beat will knock them like a brick to the head  
It's Moka O. and if you don't know, I'm sick in the head  
Ripping it that's why I'm flipping the bread  
I got your neck knotted like a bitch addicted to head[Chorus]
