

Dr. Feel Good (English Version)

Rania

Dr. Dr. Give me something to make me feel good
Not just a regular prescription today
Ain't talkin' riddlin', I need to feel real good
After our last encounter, everything changed I need a fi-fi-fi-fix. Some type of dr-dr-dr-drug
Come on & fill my prescription. Something is better than nothing
Whatever you did, just do it again
You got me fe-feelin', fe-fe-fe-feelin', fe-feelin' (Chorus)
Dr. Dr. Feel Good. Come make me feel real good
Strap me down into my chair. I've been feeling real bad
Dr. Dr. Feel Good. Come make me feel real good
Strap me down into my chair. I've been feeling real bad
I wana feel feel good (good). I need to feel feel good (good)
I wana feel feel good (ood). Cause I've been really bad bad (bad bad)
I wana feel feel good (good). I need to feel feel good (good)
I wana feel feel good (good). Cause I've been really bad bad (bad bad) Dr. Dr. I'm already back for more
I try to butter you up but this shit just didn't work
I just can't let it go, I'm losing control
I wish I never decided to explore I need a fi-fi-fi-fix. Some type of dr-dr-dr-drug
Come on & fill my prescription. Something is better than nothing
Whatever you did, just do it again
You got me fe-feelin', fe-fe-fe-feelin', fe-feelin' Dr. Dr. Feel Good. Come make me feel real good
Strap me down into my chair. I've been feeling real bad
Dr. Dr. Feel Good. Come make me feel real good
Strap me down into my chair. I've been feeling real bad
I wana feel feel good (good). I need to feel feel good (good)
I wana feel feel good (ood). Cause I've been really bad bad (bad bad)
I wana feel feel good (good). I need to feel feel good (good)
I wana feel feel good (good). Cause I've been really bad bad (bad bad) Whatever you did, just do it again
