

# Boots

## Grillo

No more trouble  
In this town  
Silent night  
For a changeBrand new year  
Coming up ahead  
You know it's been so long  
Since I rang one inI close my eyes  
Think about the path I took  
Just when I think these times  
Have gotten the best of meI can see my mother in the kitchen  
My father on the floor  
Watching television  
It's a wonderful lifeCinnamon candles burning  
Snowball fights outside  
Smile below each nose  
And above each chinStomp my boots before I go back inI wasted my wishes  
On Saturday nights  
Boy, what I would give  
For just one moreI'd soften my heart  
Shock the worldDo you hear my voice?  
Do you know my name?  
Light my way  
Lift my head, light my wayI can see my mother in the kitchen  
My father on the floor  
Watching television  
It's a wonderful lifeCinnamon candles burning  
Snowball fights outside  
Smile below each nose  
And above each chinFamily all together  
Presents piled high  
Frost on all the windows  
What a wonderful nightCinnamon candles burning  
Snowball fights outside  
Smile below each nose  
And above each chinSo happy they found me  
Love was all around me  
Stomp my boots before I go back in
