

Mediation Chorus

The Bar and Grill Singers

Litigation, pure frustration, accusation, irritation,
interrogation

Mediation, jubilation, no solution, restitution,
confusion

We must use ADR to solve cases

Jubilant, mediation, isolation, compensation

Do mediators really solve cases?

Reservation, speculation, reservation, speculation

Come let us help explain mediation

For we must settle all litigation

Will we receive our just compensation?

The details of your case, we debate

At first it's face to face and then apart and then apart

And we shall talk forever and ever

Calculate forever and ever

Speculate forever and ever

Isolate forever and ever

Irritate forever and ever

Illustrate forever and ever

Compensate forever and ever

Isolate and compensate and we shall talk

forever and ever

Speculate and compensate

And we must pay regardless of our reservation

Isolate and mitigate, agitate and compensate

And we must pay regardless of our reservation

They lock us in caucus

They drill you and bill you

Litigation, irritation, mediation, compensation,

We'll meet half way
