

Still Life With Cooley

Better Than Ezra

Everybody talking saying you will be walking
This neighborhood will never be the same
You said we'd understand
You found out what's happening now
So we all sat down and you broke the news
Now daddy don't love her anymore
It's still life with Cooley, yeah
Daddy don't love her anymore
It's just still life with Cooley
All your friends show on time
They come in bringing red wine
You said if it's over then we'll go in style
You better best take care keep one hand to your ear
So you're not left hanging when they're finally gone
Now daddy don't love her anymore
It's still life with Cooley, yeah
Daddy don't love her anymore
It's just still life with Cooley, yeah
Whatcha' saying?
You're going to stay of at St. Madigans?
We reeled in again
You're just fooling around, fooling around, yeah
People hanging with their good friends
Listening to those old songs
People hanging with their good friends
Listening to those old songs
Old songs
Now daddy don't love her anymore
It's still life with Cooley, yeah
Daddy don't love her anymore
It's just still life, yeah
It's just still life, yeah yeah
It's just still life with Cooley
