Dropout

Tijad

Did you ever notice how nobody listens
how they chatter like tone-deaf birds
I worship the ground you walk
I love how you never talk

Ooh thereâ€™s something bright in you, a shimmering light in you.
In darkness I see you holding me.

You walked out so gracefully taking the best of me.
Now I now thereâ€™s no more light just a tunnel.

Ooh just like an angel there she goes away. Just like an angel there she goes away.
Ooh thereâ€™s something bright in you, a shimmering light in you.
In darkness I see you holding me.

Ooh I am leaving, there is no purpose to this place.
Underachieving thereâ€™s no excuse to show my face
Only dust and bones
