Someone Else

Goldfinger

Sit here alone
I wonder what's the use
I'm so bored I'm just killing time
Can you explain to me
I just don't understand
Why my skin has wore so damn thin
I realize that it's been worse before
I realize.....
Don't wanna not gonna
Don't have to be myself today
I want to wake up as someone else
Don't wanna not gonna
Don't have to be myself today
I want to wake up as someone else again...
I'm so tired today
I think I'll just lay down
Hibernate just for a year or so
No matter what I do the day just slips away
I need to take some time and start it all again
I realize that it's been said before

Although I try I don't know what's in store
I realize.....
Don't wanna not gonna
Don't have to be myself today
I want to wake up as someone else
Don't wanna not gonna
Don't have to be myself today
I want to wake up as someone else again...
I realize that is has been worse before
I realize.....
Don't wanna not gonna
Don't have to be myself today
I want to wake up as someone else
Don't wanna not gonna
Don't have to be myself today
I want to wake up as someone else
Don't wanna not gonna
Don't have to be myself today

I want to wake up as someone else
I have to except that
I guess I'm stuck with me today
I have to wake up and be myself again
