

# Don't

Yve.N.Adam

My name is desire  
no will to say no  
cause it feels too good  
I'm walking on wire  
I want it all, if I could, would, should  
Body bliss is my weakness  
I'm hungry for your sweetness Don't make me want this  
Don't make me feel this way  
Don't make me do this  
Don't look at me that way Your name is trouble  
you're exactly the kind I like to get into  
I've fallen, I've tumbled  
you're everything I should not do  
Giving in to my anguish  
I'm hungry for completeness Don't make me want this  
Don't make feel this way  
Don't make me do this  
Don't look at me this way My name is desire  
Broken hearts so relentless  
my hunger for you is endless Don't make me want this  
Don't make me feel this way  
Don't make me do this  
Don't look at me this way  
Don't make me want this  
Don't make me feel this way  
Don't make me do this  
Don't look at me this way  
(repeat ad lib and fade)
