

# Sick of Tonight

## Weatherstar

I saw her leave about an hour ago  
She's gotta hit the road and I'm gonna hit the ground  
God, she's impossible  
She's losing me and I'm just losing sleep  
So, baby, take that road  
The one that we both used to know  
Remember not to call when you get there

And to speak honestly,  
I don't believe a single word you say  
So, baby, let it die  
We're walking on thin ice and I don't think we're gonna make it out alive

Have we gone too far?  
I've got a feeling that we don't know where we are  
And I can't take this  
Will someone get me off of this ride?  
I'm sick of tonight.

'Cause I would wait there by your side  
I saw the future in your eyes  
So, baby, tell me why  
Just tell me  
Just tell me

Have we gone too far?  
I've got a feeling that we don't know where we are  
And I can't take this  
Will someone get me off of this ride?  
I'm sick of tonight
