Natural Life

chickenrace

Hold stillAll of my life
All of my time
I don't wanna come back around tonight
And all that I need
Is serenity
I don't wanna feel your new diseaseThe natural life
You're born, you die
The natural life
You're wrong, you're right
The natural life
You're born, you die
The natural life's a lieAll of my lies
Swallow your pride
I don't wanna come back around tonight
And all that I need
Is serenity
I don't wanna feel your new diseaseThe natural life
You're born, you die
The natural life
You're wrong, you're right
The natural life
You're born, you die
The natural life's a lieRight
You're rightWhen you're right
I can never lie
Let me go
Try to find a home
An' I can't wait
Try to stay awake
Dead inside
Bothered by the lie
When you're wrongThe natural life
You're born, you die
The natural life
You're wrong, you're right
The natural life
You're born, you die
The natural life's a lieA lie
Lie
