# One Love

## Depzman

Back then they didn't wanna know fam
Now its like say they have to
Back then man couldn't get a show fam
Now in one day ill have two
Imma blow in this thing yeah I have to
Make my mom proud and my dad too
Gotta stay on the straight and narrow
Cah one day imma be a dad too
One love to all my family
Cant forget my granddad too
Been supporting me from the start
Hail him up yeah I had to
And mandem already know that if you got my back then ill back you
Yeah you get out what you put in fam so to put in work I'm glad to

Stopped time wasting and started learning
Stopped waiting and started working
One love to the man in my circle
We're gunna make it yeah that's for certain
One love to the haters pushing me to pic up the mic and keep murking
One love to the industry people that try block man but it ain't working

Stopped time wasting and started learning
Stopped waiting and started working
One love to the man in my circle
We're gunna make it yeah that's for certain
One love to the haters pushing me to pic up the mic and keep murking
One love to the industry people that try block man but it ain't working

I couldn't get a show fam
I was on the roads fam
So many people there but felt like I was on my own fam
Yeah I was on hot shit got locked quick
I remember I was in a cold can
Smoking weeed getting high but at the same time I was on a low damnn
Yeah you can go ask about they know man
Hope it's from music and not just the times I've had to K.O. man
Now I've come off the road and I'm doing my ting
Cuz I got my own plan

Yeah I do what I want when I like
I don't take orders from no man

Stopped time wasting and started learning
Stopped waiting and started working
One love to the man in my circle
We're gunna make it yeah that's for certain
One love to the haters pushing me to pic up the mic and keep murking
One love to the industry people that try block man but it ain't working

Stopped time wasting and started learning
Stopped waiting and started working
One love to the man in my circle
We're gunna make it yeah that's for certain
One love to the haters pushing me to pic up the mic and keep murking
One love to the industry people that try block man but it ain't working

One love to my brothers I see them
Always there when I need them
I was on the road on my own tryna get the dough
Yeah shit was peak then, but we beat that
Now the p's stacked
Man ball out every weekend
I got the cheese wrapped
Man lean back and watch them drowning in the deep end
These other niggas don't wanna see me nice
So I don't know why man pretend
One love to the man that you see me with
But I tell man straight fuck these endz
It used to be SMG
I used to just roll around with three friends
But way before my trendsetter dropped
Man was still copying these trends

Stopped time wasting and started learning
Stopped waiting and started working
One love to the man in my circle
We're gunna make it yeah that's for certain
One love to the haters pushing me to pic up the mic and keep murking
One love to the industry people that try block man but it ain't working

Stopped time wasting and started learning
Stopped waiting and started working
One love to the man in my circle

We're gunna make it yeah that's for certain
One love to the haters pushing me to pic up the mic and keep murking
One love to the industry people that try block man but it ain't working
