Run

Uh Huh Her

All alone in the world and you came and followed
But you gave me lots of reasons and you gave me things to swallow
She cuts you off from everything , and love why dont you run?
Youre wasting my time, Youre wasting my time hereHere is the girl you love to care about, girl why dont you run?All along I had reason to be hollow
But you came into my life and gave me back my confidence, yes
You are the one you love to care about, girl why dont you run
Im wasting my time here, Im wasting my time
