## Takin' Me Back

## **Cheap Trick**

You're takin' me back

I remember it well

You're takin' me back

It's so easy to tell

You're takin' me back

I remember it well

You're takin' me back

A long, long, long time ago

A long, long time agoYou, you let me down

You didn't think of me

I, I won't forget

What you did to meYou were nice not to say it Now my heart is'nt breakin'You're takin' me back

I remember it well

You're takin' me back

A long, long time ago

A long, long time agoYou, you thought that

You could make a fool of me

Don't, don't be so sure

That the fool was meI held up, I could take it

Now my heart is'nt breakin'You're takin' me back

I remember it well

You're takin' me back

A long, long time ago

A long, long time agoA long time ago, a long time ago

A long time ago you were breakin' my heart

I never found all the partsA long time ago

A long time ago

A long time agoYou're takin' me back

I remember it well

You're takin' me back

It's so easy to tell

You're takin' me back

It's written on my face

You're takin' me back

It's so easy to tellYou're takin' me back

I remember it well

You're takin' me back

It's so easy to tell

You're takin' me back
I remember it well
You're takin' me back
A long, long, long time ago
