

Follow You

Glen Burtnik

And when the daylight dies...
you'll still be there when I close my eyes
and I'll follow you - follow you
Run into the midnight blue...
you light a torch it cuts right thru
and I'll follow - follow you

I see you on the boulevard like a movie star undercover
And now my heart beats like a drummer

If I lose my way tonight
I know it's gonna be alright
'Cos I'll follow, follow you
'Cos I'll follow you

If I ever fall behind...
you'll be right there to show me a sign I can follow - follow you
And if you go away...
that's where I'll be

Lyrics www.allthelyrics.com/lyrics/glen_burtnik/
a world without you is no place for me
I'm gonna follow you

When I think of you
and the things you say
What you choose to keep,
what you throw away
You give the word and I won't be afraid

If I lose my way tonight
I know it's gonna be alright
'Cos I'll follow, follow you
'Cos I'll follow you

Maybe I'm a fool to put my trust in you
Don't you know my faith is all I have?

When I think of you
and the things you say
What you choose to keep,

what you throw away
You give the word and I am not afraid

If I lose my way tonight I know it's gonna be alright
'Cos I'll follow, follow you
'Cos I'll follow you
