

# Special

## Six60

I've been aiming for the top,  
just like a rocket taking off,  
You've got me high, I'm flying in a dream.  
Got me feelin' like I won,  
and after everything you've done,  
just let me take this little moment to say.  
That you're so special to me,  
all that I want and need.  
You're so special to me, and I want the world to see.  
So special, special.  
See, I always get a rush,  
and I don't tell you this enough,  
but you're the one who makes me happy.  
You're my future, no denying,  
from time to time I get to write it.  
But I guess what I am trying to say.  
Is you're so special to me,  
all that I want and need.  
You're so special to me, and I want the world to see.  
So special, special.  
(Yeah)  
I know you know, I know that you know  
that you're so special.  
I know you know, I know that you know  
that you're so special.  
I know you know, I know that you know  
that you're so special.  
I know you know, I know that you know.  
You're so special to me,  
all that I want and need.  
You're so special to me, and I want the world to see.  
You're so special to me,  
all that I want and need.  
You're so special to me, and I want the world to see.  
So special, special.  
So special, special.  
(You're so special to me)  
(You're so special to me)  
So special, special.

So special, special.
