

# Saturday Nite

## Danger Danger

Drivin' in the fast lane  
Pedal to the floor  
Lookin' for some action  
Gotta have more  
Head out on the highway  
Red light, Green light - Ready to go  
Outta control Movin' like a freight train  
down the track  
Full speed ahead now  
Never look back  
Workin' for the weekend  
9-2-5 just gimme a break  
I can't wait  
Folks are home in bed - Boss is outta sight  
Looks like another red-hot saturday nite It's Saturday nite  
And I feel alright  
It's Satuday nite  
And I feel alright Kick in the music  
Turn it up loud  
Great balls 'o' fire  
Twist and shout  
Tickin' like a time bomb Tick-tock, tick-tock  
Ready to blow  
Gonna to explode  
Women on the left, women on the right  
Looks like another red-hot Saturday nite It's Saturday nite  
And I feel alright  
It's Satuday nite  
And I feel alright (Sunday Monday) I can't wait  
(Tuesday Wednesday) Just three more days  
(Thursday Friday) Here it comes  
It's Saturday nite Head out on the highway  
Red light, Green light - ready to go  
Outta control  
Women on the left, women on the right  
Looks like another red-hot Saturday Nite It's Saturday nite  
And I feel alright  
It's Satuday nite

And I feel alright
