

# Air Bud

Kurt Vile

strange, strange days inside  
my mind... is daily changin  
and it's charged by  
the shifting tones of time flyin  
just in case you were wondering where i  
was...strange, strange days inside  
my mind... is daily changin...  
as result of the black cloud comin down  
just in case you were watchin the  
horizon...(we want out and we want it now)  
(we wanna take it outta town)
