Not As You Were

Ambrosia

When you've had enough of trouble
Had it up to here,
Your mind can't help but wandering
To some place gonna get you clearYou've had enough of misery
You've gotta find you somethin' newAnd I'd be gone in a wink
If I thought I could think
Of some place gonna get me throughTryin' to find some breathin' room
A little peace from your case of blues
It's hard to cut the ties that hold you
Get the lead out of your shoesYou've had enough of misery
You've gotta find you some new clueAnd I'd be gone in a wink
If I thought I could think
Of some place gonna get me throughNot as you were
You really don't need that
You tried it out
It just didn't workNot as you were
Really don't need that
Not as you were, wereOh, if I had some relief
Get me out of the rain and the cold
Then, I'd be down on my knees
Giving thanks for the peace, all rightWhen you've had enough of trouble
Had it up to here
Your mind can't help but wandering
To some place gonna get you clear
Yeah, yeah, yeahNot as you were
You really don't need that
You tried it out
It just didn't workNot as you were
Really don't need that
Not as you were, wereNot as you were, were
