Making a Mess

spookyghostboy

you swore
you won
i lost
and i am gone
i thought
we seemed
to be on the same team
now it's past nine
at home i am fine
call you later
you don't pick up
you text "what's up?"

im making a mess
im making a mess with you
could you please come through
im making a mess
im making a mess with you
could you please come through

i gave you time
to try and find
the pieces of your mind
got rewind
and now they fit
someone else
im made of wax
my heart just melts
come on
baby please
you got ahold
it's killing me
and now im blue
im not myself
im reaching out
but nothing helps

im making a mess
im making a mess with you

could you please come through
im making a mess
im making a mess with you
could you please come through
im making a mess
im making a mess with you
could you please come through
im making a mess
im making a mess with you
could you please come through
