Love is a Boombox

Ima Robot

A long time ago
A storm ripped my heart
She's mean but I'm letting you know
This is the endOh, here in the dark, the taste is sweet
Out in the park, off an unknown street
I've got to find, what it is I like, the monster awaits for me tonight
You dont have to run when youve got that sweet gunJust use it to blow, when the night beats slow
You aim for my head but hit your knees
heaven will know what you mean to me
I'm the one that got my soul knifedHey, you evil motivator
Sucking on the now and later
Love's a boombox, turn the fader
Loud, I'm in love again, do do do doNow I'm Darth Vader
Once was beat but now its later
Love's a boombox, turn the fader
Loud, I'm in love again, do do do doMeet you up in the hills for cigarettes
Sinking your teeth into my neck
Youve kept me alive, I couldnt escape
'Cause heaven was full and hell can waitYou held my hand, I kissed your feet
I was a slave that you would beat
Had no strength to hit you back
Broke my heart and left me cracked
Without a name I loved for youHey, you evil motivator
Sucking on the now the later
Love's a boombox, turn the fader
Loud, I'm in love again, do do do doNow I'm Darth Vader
Once was beat but now it's later
Love's a boombox, turn the fader
Loud, I'm in love again, do do do doI've been hunting you down your whole life
I can't be scared anymore, oh, here I come
I got my light saber now, what?
Thats right, I've been practicing, what are you doing?
Bitch, I'm gonna kill you this timeNow I'm Darth Vader
Once was beat but now it's later
Love's a boombox, turn the fader
Loud, I'm in love again
