Miracles

Stacy Lattisaw

You are my best idea
The moment I became inspired
And we've created something special here
A love to take us through the yearsOur hearts are in the right place
Beyond the shadow of a doubt
Some kind of magic taken over me
I feel this wave of ecstasy babyWe can make miracles together
Were supernatural tonight
A real life fantasy
The first time I saw you I knew
I'd found a miracle in youAn everlasting sun that shines
We are reborn again
Look what we've begun
Two worlds have now become as one
