Think a Little Sugar

Barbara Lewis

Don't want a holly golly
Don't wanna do the twist
I just wanna sit & talk with you, baby
All night long about the things we missed together
So if you'll just think a little sugar
If you'll just think a little sugar
You'll find you're wasting an awful lot of valuable timeDon't wanna hear no radio
I don't wanna hear no jams
I just wanna sit & talk with you, baby
I'll tell you just how lonely I have been
So just think a little sugar
Think a little sugar
& you'll find you're wasting an awful lot of valuable timeIf we could have stayed together I know
The days & nights we spent alone
Would have been the love over the years
& there wouldn't have been any tearsBut I don't wanna talk about a dance
For the dance has gone
I just wanna sit & talk with you, baby
All about the future, but it's been so longSo just think a little sugar
Think a little sugar
& you'll find we've wasted enough of our valuable time
& you'll find we've wasted enough of our valuable time
...& fade
