

Love Is the Healer

Donna Summer

So many times in my life I've been alone, left alone, heart broken
And turned around, I find myself crying in the night time
Dying out loud in the night I sleeplessly wake up from a dream
That's tormenting me, I, I, I, I, I gotta get help, oh yeah Love is the healer, love is the healer, come heal me
Love is the healer, love is the healer, set me free Late at night I was afraid and I tried to turn away
I was afraid to face what in-evil-it-able is Say you know the way to find true freedom
Can you save yourself from the pain you're feeling?
Something in my head that you're dreaming
That the angels said Love is the healer, love is the healer, come heal me
Love is the healer, love is the healer, set me free
Love is the healer, love is the healer, come heal me
Love is the healer, love is the healer, set me free I am on a mission, a mission of love, I am on a mission
A mission of love, I am on a mission, a mission of love
I am on a mission, a mission of love, I am on a mission
A mission of love Love is the healer, love is the healer, come as a healer
Set me free, love is the healer, come as a healer, set me free
Love is the healer, come as a healer, set me free
Love is the healer, come as a healer, set me free Do you know the way to love? Do you know the place of love?
Do you know what love can do? Do you know what it'll do for you?
