Best of Me

BulletProof Messenger

My fears are far behind
Don't feel like changing

I can't walk beside you
When you're running

So I stay behind
Slowly breathing

If not for you
I'll let you take me down

You get the best of me,
'Cause I'll never, I'll never back down
You won't take the rest of me,
I'll never back down, never back down

You get the best of me
'Cause I'll never, I'll never back down
You won't take the rest of me,
I'll never back down, never back down

To see and not to hide
The times are changing

Won't you read the signs
Instead of wondering

So I say goodbye
I'm finally breathing

I'm done with you
Now let them take you down

You get the best of me,
'Cause I'll never, I'll never back down
You won't get the rest of me,
I'll never back down, never back down

You get the best of me,

'Cause I'll never, I'll never back down
You won't get the rest of me,
I'll never back down, never back down for you

And if I live to see tomorrow,
I will live to hurt myself
When you drown yourself in sorrow,
And you break me down

B-B-B-B- Break cha break
Ya try to break me down
You still can try but you can't hold me down
B-B-B-B- Break cha break
Ya try to break me down

And if I live to see tomorrow,
I will live to hurt myself
When you drown yourself in sorrow,
And you break me down

You get the best of me,
'Cause I'll never back down, I'll never back down
You won't get the rest of me,
I'll never back down, never back down

You get the best of me,
'Cause I'll never, I'll never back down
You won't get the rest of me,
I'll never back down, never back down for you
