

# Slow Me Down

## Default

Oh, this time is right, oh, but I'm wound too tight  
Never keep, never sleep, never find all the time  
That I need just to stay in line  
Got to go, got to throw all the crap to the side  
So that I'm never left by the wayside Hold on, wait a minute, can't leave here  
And then she broke down No, no  
Can't hold me down, can't slow me down Oh, stop stepping in my way, not quite what I thought you'd say  
Never find, never mind, never peace  
God at least give me strength just for one more try  
Got to give, need to live long enough just to say  
That I stayed to the end of the big time Hold on, wait a minute, can't stay here  
And then she broke down No, no  
Can't hold me down, can't slow me down  
No  
Never hold me down, never slow me down  
No Never, never, never, never, never, never know  
Never slow, you can't hold me down  
Never, never, never, never, never, never know  
Never hold, you can't slow me down  
Never, never, never, never, never, never know  
Never slow, you can't hold me down Can't hold me down, can't slow me down  
No  
Never hold me down, never slow me down  
No  
Can't hold me down, can't slow me down
